ADMINISTRATOR PLUS

(ERP Solutions for Hospital Management)

Administrator Plus integrated new generation hospital management software which converges latest technology and your administrative process to manage work process within the hospital. This is designed for multi-specially hospitals, to cover a wide range of Hospital administration and management processes. It is an integrated client server application which uses Microsoft technologies as Front End and Flexible back (like Oracle, SQL, etc).

Administrator Plus streamlines and integrate the operation processes and information flow in the hospital to synergies the resources namely men, material, money and equipments through information.

It performs core hospital activities and increases customer service thereby augmenting the overall Hospital Image. ERP bridges the information gap across the hospital.

Administrator Plus eliminates the most of the business problems like Materials shortages, Productivity enhances, Customer service, Cash management, Inventory problems, Quality problems, Prompt delivery, Pilferage, TPA Billing etc.

BENEFITS

1. Helps in efficient management of the hospital.
2. Enhance patient care.
3. Improve work efficiency.
4. Improve financial control.
5. Eliminate the chances of any pilferage.
6. Lesser dependency on lower and middle management.
